

Welcome!

Present of the Orient

Oriental Dance, as it reveals itself to us nowadays, originates from an ancient culture of dance in the Arabic region, a culture that is still alive today.

Worldwide, many people, professionals and lay people alike, are fascinated by it. They dance for pleasure, use it as an ideal whole-body training or bring it to the stage as an art form.

The fresh unfolding of female self-esteem - part of the modern women's liberation movement - was inspired and spurred on by the thrilling natural beauty of Oriental Dance in its many facets.

More than twenty years on, now as before, it is still a great joy to me to teach this charming dance to women and girls.

Janine Botzenhardt, dance teacher, Richterswil
